For all the right connections!

A.O. Smith
CORPORATION

One Simple Connection Is All You Need with 4-in-1 Multi-horsepower Replacement Motors from A.O. Smith

These 4-in-1 motors replace hundreds of the most popular 1/3, 1/4, 1/6 and 1/8 hp, 48-frame condenser fan motors currently installed.

Easy installation with only one connection!

- No capacitors to switch or complicated wiring diagrams to follow. Plus, they can be mounted with a bellyband, thru-bolts or shell holes.

More calls completed each day!

- These 4-in-1 motors allow service contractors to have the right motor for the job for quicker service calls.

Motors available to help with any installation!

- These energy-efficient PSC designs are rated for 1/3-1/8 hp, 208-230 volt, 825 or 1075 rpm. They are totally enclosed, capable of reversible rotation and available in all angle sleeve bearing or rugged ball bearing designs.

The right connection is a simple one!
Hook up with A.O. Smith from your friends at DSG!
