VI Hi-Voltage

The New TriMod™ 600R Recloser: Super High Quality For High Voltage!

**More innovation from Joslyn Hi-Voltage, the industry
choice for professionals around the world!**

The TriMod™ 600R is a three-phase recloser with the ability to be programmed for three-phase trip / three-phase lockout, three-phase trip / single-phase lockout or single-phase trip / three-phase lockout applications using the SEL 651R control package.

Super tough to last super-long!

The TriMod™ 600R incorporates field-proven solid dielectric insulation, includes a unique bladder assembly to eliminate moisture entry (without a heater) and is rated for:

- 10,000 maintenance-free operations
- Up to 16kA of current interruption
- Up to 800A of continuous load duty

Super flexible to make your job safer and easier!

- SEL 651R and 351R compatible
- Replaceable current transformers with metal safety covers, providing a safety ground barrier
- Removable side bushing option for elbow connection

**Handle your super-tough jobs with the super-
powerful TriMod™ 600R Recloser at DSG!**
