DAKOTA SUPPLY GROUP
For all the right connections!

Introducing Innovative Taco® Pumps, Now At DSG!

Priority Zoning Circulator

- Includes low and high voltage terminal strips for easy electrical hookup and simplified wiring installation.
- Can be used in conjunction with other circulators or zone valves for a multitude of applications.

“00” Cartridge Circulators

- Ceramic shaft helps these pumps last longer with excellent wear resistance.
- Self-lubricating design and no mechanical seal provide unmatched reliability that keeps them maintenance free.

“00” Series Radiant Cartridge Circulators with IFC®

- Features an Integral Flow Check (IFC®) that eliminates the additional installation costs that go along with separate in-line flow checks.
- Performance curve delivers flow you can use in a wide combination of tube diameters and lengths of run.

3-Speed Cartridge Circulator

- The rugged 00R 3-Speed Radiant Pump features a removable, high-flow IFC® that prevents gravity flow, reduces installation costs and improves pump performance.
- The 0010 3-Speed Service Pump replaces most commonly used circulators, so it's functional for a number of jobs.
